Note: This is a print-out of 696 of 1,396 of the items in my writings log at home plus Bob's list of 77 plus another list of my own of 72 items, making a total of 845 if there were no overlap. I went through my own 1,396 guessing from just the titles which might be of value. Thus, this is a first cut. Once I get a chance to look at the files themselves I know that more documents will be added and some subtracted. Thus this is simply to give an idea of the situation at this stage. RDW

Note also: Dates are estimates whenever there is a second date in the Est. Date col.
